Spread the sunshine!
www.ilovemy.solar

Dear,

You are my sunshine!

This Valentine's day, I'm asking friends, family, and loved ones to help me spread that sunshine. I want our lawmakers to see — and hold in their hands — thousands of photos that show why solar power is important to the people and communities they represent. Will you join me this year in sending a solar valentine? You can send yours by going to www.ilovemy.solar!

Sunny regards,
