

SOLAR INSTALL TIMELINE

Thank you for being a part of Solar United Neighbors' Go Solar Group!

Check out the guide below to learn about key (approximate) milestones in the life of your new solar array!

1

Installer visits you and presents a proposal/contract

Your decisions:

1. Sign the contract?
2. Financing needed?
3. Keep your SRECs?
4. Fits your budget?
5. Milestone payments ok?

Paperwork to sign:

1. Proposal/Contract
2. Utility application
3. Permit application

2

Installer designs the system, gets all the required permits and permission to install

Your decisions:

1. Panel layout ok?
2. Design/aesthetics ok?

Paperwork to sign:

1. Utility application**
2. Permit application**

** If you didn't in step 1

3

Installer makes an appointment with you to come to your house and then installs system

4 **System gets inspected**

5 **Installer gets final approval from utility to turn system on**

6 **Installer turns system on and teaches you about it**

7 **Start saving money on your electricity ** and Celebrate!**

** If you kept your SRECs you'll start getting SREC income soon too

8

You file your taxes to claim the Federal Tax credit

Paperwork:

1. Federal tax form 5695

9 **Keep cranking out clean energy day after day!**
